

Patient Own Frame Waiver

You are more than welcome to use your own frame and have us update your lenses for you with the most recent prescription that you have. Should you choose to do this, and the frame is damaged by the lab manufacturing your glasses, we are unable to replace the frame for you. The lab will be as careful as possible, but Eye Envy Optical is not responsible for any damage that may occur, including scratches, chips, warping, or breakage.

***I understand that Eye Envy Optical will not be able to replace my frame should it be damaged by the lab during manufacturing. ***
